SS21 WANDERING BACK TO NATURE

Since my childhood, I have been a wanderer in heart and mind, always longing for new places, experiences and people. I've been fortunate to travel the world, from the very North to the Far East – all places embraced and remembered – but with one country taking up a special place in my heart. From my first visit in India, I felt like I belonged. The language, the colours, the textures, the flavours and the scents – they all felt intriguingly different, and at the same time familiar.

This year everything has been different. We have all been housebound and not able to travel the world for inspiration and new experiences. I believe I am not the only one seeking back to old cores, picking up knitting, baking, fermenting, reading books and spending time with my loved ones outside in nature. Being able to go for a long walk, take a dip in the sea and smell the fresh scent of trees in the forest, have helped me stay optimistic and calm in the belief that at some point everything will be fine.

The SS21 collection is a tribute to everything that surrounds us and shapes us. To the different colours, materials and textures we bring back home from our journeys. Wander back to nature with us and explore our collection of soft sorbet and light creamy colours, the earthy tones and shades of green and the natural colours of recycled materials.

Step into the new catalogue and get inspired to a
HOME SWEET HOME of spring and summer.

Pernille Stoltz
Creative Director & Founder

MADE BY HAND CHOSEN BY HEART

Madam Stoltz is a lifestyle company known for our characteristic Boho-style – a combination of the cold and calm Scandinavia and the warm and colourful Asia.

Our collection represents consciously handmade designs inspired by nature, local traditions and craftsmanship from India, Morocco, China and Vietnam. Our items range from textiles to furniture and lamps, from practical accessories to cozy need-to-haves. We love when items come with a history and when we can see traces of its pre-life or the uneven shapes human hands leave when manufactured.

Our suppliers mean the world to us. They are our friends and family. In a normal year, we travel several times to meet up with suppliers and look for new trends, materials and support the community. We look forward to when the world opens up and we again can visit our extended family!

Madam Stoltz started out as a business in Pernille Stoltz' suitcase in 1997 and has grown into a family business headed together with her husband Peter. The company is based in Nexø, on the east coast of the small Danish island Bornholm, from where we design, order and ship to the whole world.

We could not think of a better place to run our business.

VISUAL JOURNEYS

Every collection has its own story to be told. Pernille is always spotting places on Bornholm that can frame the special atmosphere of Madam Stoltz. We love to combine natural surroundings with the raw looks of houses and buildings, taking our collection on a journey and bringing it to life. This year we have been out in the fields, catching that special atmosphere of long summer nights. And we found the beautiful raw walls in one of our many local art galleries. You can see a behind the scenes film from the photo shoot at madamstoltz.dk

DAY DREAMER

We have all been dreaming of long summer nights with open fire
under the open sky. When we cannot travel, it is a gift of nature
that happiness can be found close to our homes.

FARM FRESH

We love to bring nature home. Fresh mint in a bottle of water, a bowl of ripe figs, dried flowers and plants for decoration – the joy of serving farm fresh vegetables for dinner. We are inspired by nature and love mixing urban and rural colours and styles.

IN OUR HEARTS

Nai Disha means new direction in Hindi. For many years, we have been supporting the Nai Disha Learning Centre in New Dehli. Here, children and young people from the slum areas are given the opportunity to get a new direction in life through education and social and creative activities. In 2015, we decided to involve the mothers of the children. Today, more than 60 women are employed in the Madam Stoltz production at Nai Disha, using their hands and special skills to create beautiful pieces for our collections. We are grateful that we are able to give something back to a country that has given our company so much.

LIFE OUTSIDE

Nothing beats life outside. Gathered around a long table with friends
and family, sharing food and stories in authentic surroundings.
Hello summer nights – we are longing for you!

PLAYFUL WANDERER

There are small journeys all around you. A walk in the woods, a climb in a tree, a shower outside. Go glamping and enjoy the beautiful things that happen when you stop the clock, take off your shoes and walk around barefooted. Let nature be your playground!

Invite nature in.

We love the natural look of real bamboo shaped by human hands.

NATURE'S CHILD

Do you remember being a child not wanting the day to end and go to bed? Be that child again! Nature is your playground – explore everything it has to offer. Heat up the wilderness bath, turn off your mind and enjoy life outside.

MADE BY HAND

Every little piece in our collection is made by hand or shaped by nature. We love the unique and uneven looks. For years, we have been collaborating closely with our suppliers – they are our friends and extended family. This year has been different. We have not been able to travel, shake hands and meet face to face. But our long history of collaboration has made it possible to create this spring and summer collection from a distance.

HOME ADVENTURES

We have travelled the world, carefully picking out items that recreates the special moods and atmospheres we remember. By mixing colours and styles from different cultures, you can turn your home into your personal adventurous space. Be bold and invite your mind on a journey!

Get organized and let your creative spirit flow!

The set box used to be in an Indian print shop, the block prints have been used for making Indian textiles. Now it's up to you to give them a new creative beginning.

Let the light in and make room for creativity.

FAREWELL PLASTIC

When containers from all over the world arrive to our warehouse, we are excited like kids and can't wait to unpack all the items. This year more than ever we are looking forward to unpacking. In collaboration with our suppliers we have removed plastic from our packaging, replacing it with paper and cardboard which is more friendly to the environment and easier to recycle. Where plastic is still necessary, we are now using biodegradable plastic.

BOHEMIAN LIVING

Who said hats and carpets should not go on a wall and
that palm leafs are only for beaches? We believe in bohemian living.
There are no rules for how to organize and decorate your home.
Let your personal mood and spirit free – go Boho!

We love recycling!
We find things that used-to-be and turn it into new-to-be.
From old iron baking trays and chairs from India,
to recycled textiles made from leftover clothes
from the textile industry in India.

From day one raw iron has been a favourite material for Madam Stoltz. We are always inspired by natural shapes. This iron lamp has borrowed the shape of a leaf – we absolutely love it in company with dry flowers and palm leaves.

WE ♥ RECYCLING

It started out as a creative exercise: How can we reuse materials in our collections? Now it plays a pivotal role in our business. We are continuously working together with our suppliers to upcycle and recycle. We love the idea that you can enjoy dinner, sitting on an iron chair that has witnessed hundreds of weddings at a party hall in India. That old train tracks are used as serving boards and wooden brick moulds now can store your gems. And that glass and leftovers from textile production are used to create new items for our collections. Together with using a lot of non-processed materials like bamboo, palm leaves and sea grass, we try to contribute to a more sustainable life. We hope you love it too.

SORBET BLOSSOM

This summer is all about mixing layers of tone in tone.
Create a relaxing atmosphere of blush and delicate colours.
Get comfortable with our soft shapes and natural materials.

WE ARE ALWAYS HERE

2020 turned out very different than we all planned. What first looked like one or two months of social distancing, now looks like a full year.

Sadly we will not be exhibiting at the fairs this season. But luckily we can still stay connected. We are ready to help you with any questions about the collection or your orders. As something new we made a little film from the SS21 photo shoot where you can see the collection come to life. We hope you will enjoy the special atmosphere and experience our collection from a new perspective. Visit madamstoltz.dk to see the film.

Stay safe. We can't wait to see you all again!
