TOPPERS

For a great night's sleep

VISCO

VISCO FOAM.

Visco foam mattresses are based on foam technology developed by NASA for the space programme. This so-called memory foam is a polymer which responds to pressure and warmth. As a result the visco foam of the mattress adapts with precision to the body of the sleeper.

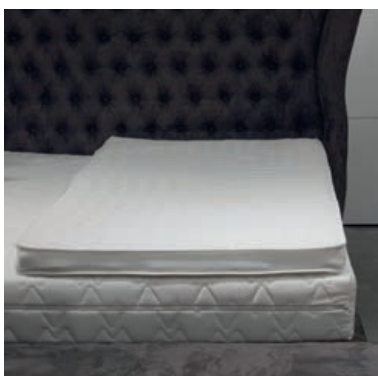

VISCO TOPPER

Cover: Double cloth (180gr) 100% PES, absorbent cotton, 150 gr PES, underfleece non-woven 20 gr, 4-side zip, wave quilting, with air vent, cover removable and washable up to 60°

Core: Visco 4cm height, overall height 6cm, RG50 (5040), compression hardness 4.0, Ökotex Standard 100

82860	82861	82326
160x200x6	180x200x6	90x200x6

GEL

GEL FOAM

Compared to typically viscoelastic foam, gel foam reacts to pressure rather than warmth. This means that the material adapts to the body as soon as you lie down on it. As a result this high-tech foam can provide optimum support across the entire reclining area. In contrast to visco, gel foam also has the resilience to regain its shape immediately.

GEL TOPPER

Cover: Double cloth (260gr) 100% PES, absorbent cotton, 180 gr PES, underfleece non-woven 20 gr, 4-side zip, wave quilting, with air vent, cover removable and washable up to 60°

Core: Gel 6cm height, overall height 8cm, RG40 (4030), compression hardness 3.0, Ökotex Standard 100

82328	82327	82821
160x200x8	90x200x8	180x200x8

COLD FOAM

COLD FOAM

The most widespread materials currently used in Germany for the core of mattresses are polyurethane (PUR or PU for short) foams, with cold foam mattresses dominating.

COLD FOAM TOPPER

Cover: Double cloth (120gr) 100% PES, absorbent cotton, 80 gr PES, underfleece non-woven 20 gr, 4-side zip, diamond quilting, with air vent, cover removable and washable up to 60°

Core: PUI 4cm height, overall height 6cm, RG260 (2630), compression hardness 4.0, Ökotex Standard 100

The measure of all things. You and your sleep.

Not all neck pillows are the same! In other words, not every neck pillow is the right pillow for your neck! Getting a good night's sleep is a highly individual matter, and you should make sure that you sleep on a pillow which is tailored to your own size in order to relax at night and wake up fresh in the morning.

Just as with your mattress, the trained staff of the KARE Kraftwerk Sleep Studio will help you to select just the right pillow for your neck.

For a wonderfully relaxing sleep.

A good night's sleep is essential. How good is yours?

Together with IPNOmed we have developed a neck support pillow which comes in seven different heights.

96107
H70, 7x80x40cm

96108
H85, 8,5x80x40

96109
H95, 9,5x80x40

Measurements for comfort: your perfect pillow

The perfect pillow needs to have exactly the right height and shape, and combine firm support with pleasant softness. It has to be a good fit and provide real relief for your neck. In short: you need to be measured in order to find your personal perfect pillow.

Thanks to our simple but highly effective way of taking measurements at the KARE Kraftwerk Sleep Studio, we can quickly find the right pillow for you and make sure that you have pleasant dreams.

Cover

Double cloth made of: 45 % Lyocell (Tencel®), 2 % polyamide, 25,5 % polyester, 1.5% elastane with zip and piping.

Core

Soft-Therm (RG 55)

Care & cleaning

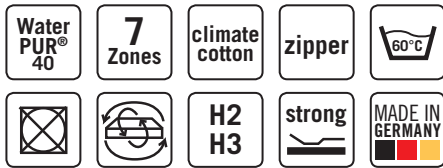

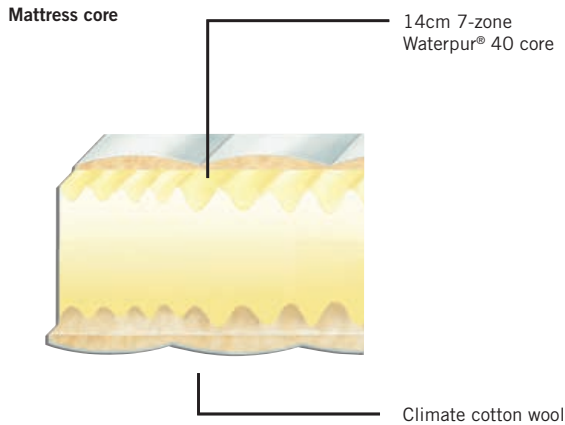

Your new IPNOmed pillow is easy to look after. The Tencel® pillow cover is removable and can be washed at up to 40 °C in the programme for delicate fabrics. In contrast, the core of your IPNOmed pillow does not require special care. You can simply clean it with a damp cloth and a mild detergent.

KARE warranty

We provide a warranty of two years on the material and workmanship of your new IPNOmed® pillow

KARE HARMONY

The core
14cm 7-zone Waterpur® 40 core:
point elastic, air permeable and temperature balancing

Waterpur® 40 - the high quality basic cold foam
– open pores
– permanently elastic
– climate regulating

The cover
The cover is quilted on both sides with high-quality, moisture-regulating and breathable cotton wool.

Cover with climate strip and 4-sided dual zip, removable and washable up to 60 °C

Textile markings
Cover 72140 seagull: 100% polyester complies with Öko-Tex Standard 100, Test No. 94.0.8097 by Hohenstein Institute.

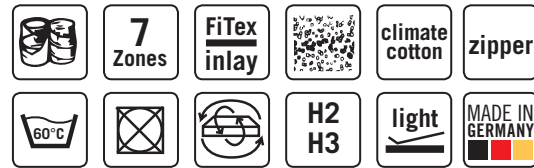

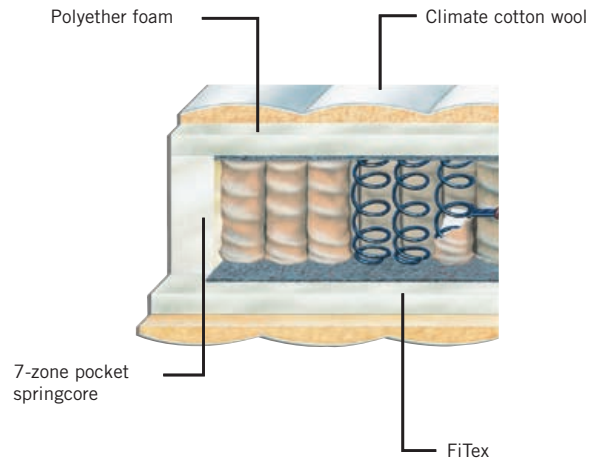

Filling: 100% polyester
Base for quilting: 100% polypropylene

Further information
Regularly turning and rotating the mattress extends its useful life and maintains reclining comfort. Available in hardness levels H2 and H3. Extreme slatted frame positions possible. Overall height: ca. 17 cm

Hardness level H2
82636 82637 82638 82639 82640

80x200 90x200 100x200 140x200 160x200

KARE MELODY

The core
Specially reinforced seven-zone pocket springs sewn individually into fabric pockets and separately braced ensure a high level of point elasticity and reclining comfort ideally adapted to the body.

Premium-quality moulded upholstery made of permanently elastic polyether foam.

A FiTex insert increases stability (for optimal transmission of the weight to the pocket springs).

The cover
The cover is quilted on both sides with high-quality, moisture-regulating and breathable cotton wool.

Cover with climate strip and 4-sided dual zip, removable and washable up to 60 °C
